#### Documents

- The event will let you drag and drop files or upload them from your computer.

For dependents you will need to provide a **marriage certificate** for your **spouse** and **birth certificate** for any **dependent child** on your plan.

The review document event will only let you upload one document, if you have multiple documents for multiple dependents we ask that you condense them into one document prior to upload, if you are not able to do so, please upload them into Worker documents.

#### Documents

The screenshot shows the 'Review Documents' interface. At the top, there is a document titled 'Dependent Eligibility' with a PDF icon. Below it, there are instructions: 'Please download the attached document and follow the instructions.' and a signature statement: 'I confirm that I have read and understand the above.' There is a checkbox labeled 'I Agree' which is circled in red, with a red arrow pointing to it and a red box containing the text 'Click here'. To the right, there is a red box containing the text 'Upload documents here' with a red arrow pointing to a 'Drop file here' area. The 'Drop file here' area is also circled in red and contains the text 'Drop file here', 'or', and a 'Select files' button.

Press submit when you are done.

- If you have multiple dependents and weren't able to condense their proof documents into one file, then click  MENU next to the word ZOLL at the top left-hand corner of the screen
