

Specialty pharmacy requirements

For UnitedHealthcare commercial plan members

To support the provider/patient relationship, participating outpatient providers are required to obtain certain complex & rare disease, specialty, and oncology supportive care drugs from indicated specialty pharmacies unless otherwise authorized by UnitedHealthcare. In the event the in-scope medication is obtained through the indicated specialty pharmacy, the specialty pharmacy will bill UnitedHealthcare directly for the drug under the member's medical benefit. Outpatient hospitals may only seek reimbursement for administering the medication and not for the medication itself and may not bill the member for the medication.

Outpatient providers can contact their Network Contractor with any questions regarding the various contracts/fee schedules for each drug listed below.

Please note: The specialty pharmacy requirements are subject to applicable state laws and regulations and do not apply to UnitedHealthcare West, UMR, Student Resources, UnitedHealthOne and Sierra plan members.

Medication Sourcing requirement — All outpatient providers

Places of Service: Outpatient Facility, Physician Office, Home, Ambulatory Infusion

The requirements do not apply to Louisiana and Maryland for the 5 drugs listed below.

Therapeutic class	Brand name	Code	Specialty pharmacy
